PREFACE.

After a temporary suspension of the publication of the Plymouth Records the third volume is now issued by authority of a vote of the Town passed at its annual meeting of last year. This volume covers a very interesting period beginning in 1743 and ending at the close of 1782. During that period the records were kept by Samuel Bartlett from 1741-2 to March, 1766; by John Cotton from March, 1766, to March, 1767, and by Ephraim Spooner from 1767 during the remaining years.

Samuel Bartlett having been referred to in the second volume no further mention of him is necessary.

John Cotton was a son of Josiah Cotton of Plymouth, grandson of Rev. John Cotton, also of Plymouth, and great-grandson of Rev. John Cotton of Boston, who came from England in 1633. He was born in Plymouth, April 5th, 1712, and graduated at Harvard in 1730. He studied for the ministry and was ordained pastor of the church in Halifax, Massachusetts, in 1736. Leaving the ministry he returned to Plymouth, and in 1756 succeeded his father as Register of Deeds for the County of Plymouth, holding that office until his death, November 4, 1789. He was a delegate to the Massachusetts Constitutional Convention in 1780, and the author of a history of the First Church. He was the father of Rev. Josiah Cotton of Wareham, of Rev. Ward Cotton of Boylston, and of Rossiter Cotton, who succeeded him as Register of Deeds. The following lines are inscribed on his gravestone on Burial Hill in Plymouth:

'Tis Heaven's irrevocable decree:
That the great, the good, the pious shall fall,
In the dark grave undistinguished to be,
'Till the last trumpet rends the azure sky!
When the virtuous immortal shall rise
To glory and joys 'bove the starry skies;
The vicious to pain, dishonor, contempt
In realms below the splendid firmament.

Ephraim Spooner was son of Thomas and Mary (Nelson) Spooner, and was descended from William Spooner, who came from Colchester, England, and settled in Plymouth in 1636. He was born in Plymouth in 1735, and for some years was a partner in business with Thomas Davis. On the 26th of October, 1775, he was appointed associate justice of the Inferior Court of Common Pleas, holding that office until July 5, 1790, when he was appointed judge of the Court of Common Pleas for Plymouth County, holding his seat until the Court was abolished, June 21, 1811. He was at various times Representative, member of the Executive Council, and many years Deacon of the First Church. He died in Plymouth, March 22, 1818.

WM. T. DAVIS, *Editor*.

In 1737 a new issue was made calculated to rate at one for three of the old tenor and in 1741, a new set of bills was issued to circulate at the rate of six shillings, six pence per ounce of silver and these becoming the new tenor, the issue of 1737 was called middle tenor. In 1741, the old tenor was rated at twenty-nine shillings per ounce and the new at nine shillings, six pence. In 1747, the paper currency of the Colony amounted to about two millions, and of this amount £1,792,236 5s 1d before June 3, 1751, had been redeemed by money received as due to the colony on account of expenses in the expedition against Cape Breton. So that it appears that what Is now Due To the Town for Principall on the Bonds ariseing by Sale of the Mile and half Land is £235-18-10¾d Lawfull money and the Intrest Now Due To Compleat the yearly Intrest on said Bonds for the Time past is £38-12-2¾ of the same Currency.

There is one old Bond more in the Treasury from Joshua Donham Deceased for 11-5-0 of the then currency Dated Decr 7th 1731 said to be Given By him for what the Town Did for him when sick of the Small Pox & is of No Vallew

With Respect To the Appropriation of the said mile and half money Wee find that by a vote of sd Town at a Meeting held March 2d 1710-11 the money ariseing by the sale of the Common Lands Was Sett apart To Be Improved wholly to the maintanance of A School.

[151.] In said Town and That Perpetually and Not to be alienated From That End To Any other Use for ever.

We Also find that the Interest of said money (Except What is Now Due as above) Has from Time To Time been paid into the Treasury, and has Been Drawed out and Applied, for the Use and Service of the Town in Common With their other monies, and has Not in any other manner Been Applied for the Maintenance of a School.

We further find that all the Articles of Payments and Disbursements made and chargd by the Treasurer on his Book are well vouched, Except one Artical of Charge on the 4th of Novr 1749 of 10-17-6 old Tenour made Abial

Shurtleff by order of the Selectmen, Which Cant at Present be found; and that the Treasurer has Charged and Taken for Commissions Two & a half for it, and No more for Receiving in and Paying out the Towns Money (Exclusive of the Poors money for which he has charged Nothing) and that this has Been the Practice With and Allowance made the Preceeding Treasurer.

And As there has Not Been from the Beginning to this Day any Distinct Account kept on the Treasurers Book for the mile and half Bonds, We think it Adviseable that a Distinct Account Bee hereafter kept of them, Whereby at one view the Town may at any Time know How that affair stands, and that it would Bee Best that the Treasurers Accounts should hereafter Be Settled once a year all Which is submitted.

To such Person or Persons as will accept ye same. To Hold to him or them and His or their Heirs or Assigns forever upon this Express Condition, That he or they and his or their Heirs or Assigns shall within such a time as the Town shall think proper Build a good and Convenient Cartway and Bridge of twenty foot wide, and so high as to be out of the Reach of ordinary Tides over and above the Town Brook aforsd, And to keep and maintain the sd way open and in good Repair forever, and to allow the sd way to be continued and of the same Bredth across the Beach, to ye way Laid out below sd Watsons Land; and that for Default herein it shall and may be Lawfull for ye sd Town to Enter upon ye sd Granted Premises, with the appurtenances, as in their own Right and hold the same as fully & Completely as tho' no such Grant had been made.

That a Committee be appointed with full power and Authority, In the Town's Behalf to transact this affair; and to Convey the premises aforsd under the Restrictions and Limi-

tations aforstd, to any Person or Persons that shall undertake the propos'd work. Sir, As we have the highest esteem of the British Constitution which we think Founded on the True Principles of Liberty and to Deserve on many accots the preference to any other now on Earth, We cant But Reflect with Pleasure on our own Happiness in being sharers in that Liberty, those Rights, and that security which Results from them to every subject, in the wide extended Dominions of our most Gracious Sovereign who has not forfeited his right to them by Disloyalty to his King, want of attachment and a Resonable submission to the British Government & Love to his Fellow subjects there, these are so Foreign to the character of the People of this Country that Calumny itself has never been able to Fix it upon them we have evinc'd our Loyalty to our King, our affection to the Brittish Government and our Mother Country on all occasions By an uncommon Readiness to arrest in any Measures with our Blood & Treasure to extend their conquest & to enlarge their Dominions From which they Reap so many and great advantages, at the same time that we Reflect on our Happiness in haveing a natural & Constitutional Right to all the Priviledges of our Fellow subjects in Great Brittain we Behold with Pain & Horror any attempts to Deprive us of them, and cant but Look on such attempts as Instances of the Greatest Unkindness & Injustice this of the subject of our Present Complaint which not without Reason Echo From every mouth in every corner of this Distressed & Injured Country. Our youth the Flower of this country are many of them slain, our Treasure Exhausted in the service of our Mother Country, our Trade and all the numerous Branches of Business Dependent on it Reduced & Almost Ruined By severe acts of Parliament & now we are threatned by a Late Act of Parliament with being Loaded with Internal Taxes without our own consent or the voice of a single Representative in Parliament & with Being Deprived of that darling Priveledge of an Englishman, Trials By his Peers the consequence of the unconstitutional extension of the Power of Courts of Admiralty in America, these two are the main Pillars of the Brittish Constitution & the Glory of every Freeman their, so that the Depriving us of them creates such a Distinction Between us & them our Fellow subjects as cant be accounted For from any Principles of

Justice & Impartiality & we certainly have never given any occasion For we shall say nothing on this occasion of our Inability to Pay the many & Great Taxes Laid upon us by the Stamp Acts of the many new crimes opened By it which cannot But be committed by many People However Desir-
eous they may be to avoid them of the Prodigious Penalties annexed to them or of the Great Hardship in subjecting the Trial of them to the Judgment of such a Court & Such a manner of conviction or of the many Great Disadvantages that must arise From these Measures To Great Brittain herself there are obvious Facts & have Already been handled in such a Masterly & Convincing manner by some of the Friends of both this & the Mother Country And of the British Constitution, *

[220.] (For they cant be seperated) as to Render it Un-
necessary to enlarge on them.

You Sir Represent a People who are not only Desended From the First Settlers of this Country But Inhabit the very spot the First Possessed. Here was First Laid the Foundation of the British Empire in this Part of America which From a very small Beginning has Increased & spread in a Manner very surprising & almost Incredible, especially when we Consider that all this has Been effected without the Aid or assistance of any Power on earth that we have Defended Protected & secured ourselves against the Invasions & Cruelty of savages & the Subtility & Inhumanity of our Inveterate & natural enemies the French & all this without the appropriation of any Tax by stamp or stamp Acts Laid Upon our Fellow subjects in any Part of the King's Dominions For Defraying the Expences thereof. This place sir was at First the Asylum of Liberty & we hope will ever be Preserv'd sacred to it though it was then no more than a Forlorn Wilderness inhabited only by savage men & Beast to this Place our Fathers (whose memories be Rever'd Possessed of the Principles of Liberty in there Purity Disdaining slavery Fled to enjoy those Priveledges which they had an Undoubted Right to but were Deprived of By the Hands of Violence & Oppression in their native country. We sir their Posterity the Freeholders and other Inhabitants of this Town Legally assembled For that Purpose possessed of the same sentiments & Retaining the same ardour For Liberty think it our indispensible duty on this occasion to ex-

press to you these our Sentiments of the Stamp Act & its Fatal consequences to this Country & to Enjoyn it upon you as you Regard Not only the Welfare but the very being of this People that you (consistant with our allegiance to the King & Relation to The Government of Great Britain) Disregarding all proposals for that Purpose Exert all Your Power & Influence to oppose the Execution of the Stamp Act at Least Untill we learn the success of our Petition. For Relief We Likewise to avoid Disgracing the memories of our Ancestors as well as the Reproaches of our own Consciences & the curses of Posterity Recommend it to you to obtain if Possible in the Honourable House of Representatives of this Province a Full and Explicit assertion of our rights & to have the same entred on their Publick Records that all Generations yet to come may be convinced that we have not only a just sence of our rights & Libertys, but that we never (with Submission to Divine Providence) will be slaves to any Power on Earth & as we have at all times an abhorrence of Tumults & Disorders, we think ourselves happy in being at Present under no apprehension of any & in haveing Good & wholesome Laws sufficient to Preserve the Peace of the Province in all Future times, unless Provoked by some Inprudent Measures, so we think it By no means Adviseable For you to Interest yourself In the Protection of Stamp Papers or stamp officers. The only thing we have Further to Recommend to you at this time is to observe on all occasions a suitable Frugality & Oeconomy in the Publick expences & that you consent to no unnecessary or unusual Grants at this time of Distress when the People are groaning under the Burthen of Heavy Taxes & that you use your Endeavourers To Enquire Into & Bear Testimony against any Past & to Prevent any Future unconstitutional Draught on the Publick Treasury.

Jas Warren pr order.

To the Respectable Inhabitants of The Town of Boston:—

Gentlemen—Att a Time when the Rights & Libertyes of this Country are Invaded & The Inhabitants threatened with the loss of Every thing, that is Dear to them, when they are Embarass'd with every Distress that is the never Failing Consequences of slavery & Poverty, no man or Society of men, who are sharers in the Common Calamity (Unless Totally Destitute of Every Spark of Publick Vertue & Patriotism) can Remain unfeeling & unactive spectators, but must be Ready on all occasions to Bless The Hearts Which Feel & The hands which exert Themselves to avert the Evils threatened & To Restore That Happiness Which Constantly attends the Full Enjoyment of Natural & Constitutional Rights & Libertyes. We therefore the Inhabitants of the Town of Plimouth Animated with a Spirit of Public vertue & Love of our country as well as Gratitude to all our Bene-

factors & more especially to such as have Distinguished themselves in the common cause of their country in this Day of Distress & Difficulty & Being Assembled in Town Meeting For that Purpose as a Publick Testimony of our esteem & Gratitude Beg you to Accept our Unitted & Generall Thanks for the Invariable Attachment you have (on all occasions & Particularly on the Present) shewn to the Principles of Liberty & For the vigorous exertions of your Loyall & Legal Endeavours to secure to your country the Uninterrupted Enjoyment of that Blessing & to Transmit the same Intire & Perfect to the Latest Posterity.

Instances of this much to your own Honnour & The Interest of your Country distinguished By the Unerring Marks of Disinterestedness & Generosity Crowd Upon our minds on this Occasion, but to avoid the Imputation of Prolixity Permitt us to single out a few which are Recent & must Readily Occur to Every ones mind & which are sufficient of themselves to Justifie our sentiments & merit the Gratitude of every well Wisher to this country.

The new Regulation with Regard to mourning which has not only saved this Country a Great & Needless expence & in a manner abolished a ridiculous Pageantry, but Produced Consequences in our Mother Country very beneficial to us & all Principally at your Expences as your merchants were the Principle Importers & venders of those articles, a Measure which at the same time that it Reflects a Lustre upon your conduct shews By the success of it that the People of this country have vertue enough To Prefer its Interest to any Fashion that may stand in competition with it however

[223.] Established by long custom & very Perticular prejudice. The opposition you have at all Times made both to the foreign & domestic Invation of our Rights, Particularly the Legall & Warrentable Measures you have taken to Prevent the execution of the stamp act in this Province. The spirited & Noble Application you have made to have the Custom Houses & Courts of Justice opened in this Province, Upon which our Welfare Peace & Tranquility so much Depend. The Testimony you have From First to Last bore against & The Abhorrence you have expressed of all outrageous Tumults & Illegal Proceedings & their consequences & the Measures very early Taken to Restore Tranquility & the security of Property in your Town the Capital

of This Province, & the Good example Thereby Given To the other Towns of That Love of Peace & Good order which Influenced you & which we think sufficient to Destroy all those Injurious conections the work of some Peoples Imaginations & From which they affect to draw consequences not only Disadvantageous to you but to the whole country. To Conclude that you & your Posterity may even be Possessed of the Full Enjoyment of that Liberty you have so Laudably asserted & contented for that your trade & Commarce the source of riches & opulence to this Country may be extended & Flourish that you may ever continue to Deserve & have the Justice Done you to be Possessed of the Love & esteem of your Fellow Countrymen who Renouncing that solecism in Politicks which arises From an Unnatural Distinction Between Landed & Comercial Interest shall exert themselves to encourage your Hearts & strengthen your Hands, are The sincere wishes & ardent Prayers of your Fellow Subjects to the Best of Kings, your Fellow Sufferers in the calamitys of this country & Your Fellow Labourers in the Vineyard of Liberty the Inhabitants of the Town of Plymouth.

At a Town Meeting held at the Court House in Plymouth on Monday the 12th Day of May A D 1766 at 3 P M.

The Town made choice of James Warren Esqr to serve as Representative for said Town at the Great & General Court or Assembly of this Province, to be convened & held at Boston upon the last Wednesday of May instant. At said meeting the Answer of the Town of Boston to Plymouth's Address (recorded P 222) was read, and ordered to be recorded, and is as follows.—

“At a meeting of the Freeholders & other Inhabitants of the Town of Boston legally qualified & warned in publick Town Meeting assembled at Faneuil Hall on Monday the 10th Day of March, and continued by Adjournment to the 24th of said March A D 1766.—

The Committee appointed to make answer to the Letter of Address from the Town of Plymouth—Reported the following Draft, viz—

To the Inhabitants of the Town of Plymouth, Gentlemen. The Inhabitants of the Town of Boston legally assembled in Faneuil Hall have received with Singular Pleasure your respectful address of the 16th of January last. The warm Sentiments of public virtue which you therein express, is a Sufficient Evidence that the most ancient Town in New England to whose Predecessors this Province in a particular manner is so greatly indebted for their necessary Aids in its original Settlement, still retain the truly noble spirit of our renowned Ancestors.

When we recollect the ardent Love of Religion & Liberty which inspired the Breasts of those worthies; what induced them, at a Time when Tyranny had laid its offensive Hand on Church and State in their native Country, to forsake their fair Possessions, and seek a Retreat in this Distant Part of the Earth. When we reflect upon their early Care to lay a solid Foundation for Learning, even in a wilderness, as the surest, if not the only means of preserving & cherishing the Principles of Liberty & virtue, and transmitting

them to us their Posterity, our mind is filled with deep veneration, and we bless & revere their memory when we consider the immense Cost & Pains they were at in Subduing, cultivating & Settling this Land, with the utmost Peril of their lives; and the Surprising Increase of Dominion, Strength & Riches, which has accrued to Great Britain by their Expense & Labour, we confess we feel an honest indignation to think there should have been any among her Sons, so ungrateful as well as unjust & cruel as to seek their Ruin.

[228.] Instances of this too frequently occur in the past History of our Country. The names of Randolph of Andros & others are handed down to us with infamy. And the Times in which we live, even these very Times, may furnish some future Historian with a Catalogue of those, who look upon our rising Greatness with an envious Eye; and while we and our Sister Colonies have been exerting our growing strength in the most substantial service to the Mother Country, by Art & Intreague have wickedly attempted to deceive her into measures to enslave us.

If then, Gentlemen, the Inhabitants of this metropolis have discovered an invincible attachment to the Principles of Liberty when it has been invaded; if they have made the most vigorous Exertions for our Country, when she has been threatened with the Loss of every thing that is dear; if they have used their utmost endeavor, that she may be relieved from those Difficulties with which she is at this Time embarrass'd; if they have taken the warrantable & legal measures to prevent that misfortune, of all others the most to be dreaded, the Execution of the Stamp Act; and as a necessary means of preventing it, have made any spirited Application for opening the Custom Houses & Courts of Justice; if at the same Time they have bore their Testimony against outrageous Tumults & Illegal Proceedings, and given any Examples of the Love of Peace & good order—Next to the Consciousness of having done their Duty, is the Satisfaction of meeting with the Approbation of any of their Fellow Country-Men.

That the Spirit of our venerable Fore-Fathers may revive & be diffused through every Community in this Land. That Liberty, civil & religious, the grand object of their view, may still be felt, enjoyed & Vindicated by the present Generation, and the fair Inheritance transmitted to our latest

Posterity, is the fervent wish of this metropolis. Submitted by Samuel Adams John Ruddock John Hancock.

Whereupon voted, that the same be accepted and that the Town Clerk be and hereby is directed to transmit as soon as may be to the Town Clerk of Plymouth a fair and attested Copy thereof, in order to its being laid before said Town
Att William Cooper Town Clerk."

At a Town Meeting held at the Court House in Plymouth on Monday the 30th Day of June Anno Domini 1766.

Thomas Foster Esqr Chosen Moderator & Sworn. Voted that the sum of two hundred and ten Pounds be assessed on the Polls & Estates of the Inhabitants of this Town for the Defraying of Town Charges this present year.

And the Assessors are directed in making the Taxes not to Exceed a Surplusage of fifteen Pounds.

Voted that it is the mind of the Town that *Mr Fobes (the present School Master) be applied to to keep the Grammar School the ensuing year, if he incline to it,—And that the Committee appointed to take Care of said School be directed to wait on Mr. Fobes with a copy of this vote, offering him the same Terms upon which he kept the School the last year; But if he refuses, then to make application to some Gentleman to keep said School, that has not kept in this Town heretofore.

Voted that the Sexton's Salary for the present year shall be eight Pounds.

Voted to choose a Committee to consider what is proper to be done in order to the Calling a meeting of the Proprietors of the Common Land within This Town, & the neighboring Towns formerly belonging to Plymouth, and to act & [229.] do everything that may appear necessary for that Purpose. Committee chosen Thomas Foster Esqr, John Cotton Esqr & Deacon John Torrey.

Deacon Nathl Warren Capt Jabez Harlow Chosen to serve on the Jury of Tryalls at the next Court to be held on the 1st Tuesday of July at Plymouth.

At a Town Meeting of the Freeholders & other Inhabitants of the Town of Plymouth assembled & held at the Court House on the 25th Day of August A D 1766 at 10 A M.

Dr Lazarus LeBarron Chosen Moderator and sworn.

* Perez Forbes was a native of Bridgewater.

James Warren Esqr Representative of this Town at the General Court, haveing petitioned the Town to give him some Instructions, if they tho't proper, with Regard to his Conduct at the next Sessions of the General Court. The Town voted to give him Instructions. And that Thomas Mayhew Esqr, Dr Lazarus LeBarron, & Mr. Nathani Goodwin be a Committee to draw up said Instructions, and make Report in the Afternoon.

Then the Report of a Comittee relating to the common Land was read which was accepted and is as follows.

"We the Subscribers being appointed a Comittee to make Search into the state of the common Lands in this Town, & to Consider what is proper to be done in order to the calling a Proprietors meeting &c, Do make Report as follows—

That after the Strictest Search, we apprehend that *the Sheep-Pasture so called, consisting of three miles square of Land, does properly belong to the Town, and not to any particular Propriety

"We find that on May 24 1703 The Town voted that said Land should lay for perpetual Common.

And then granted the use of it to Sundry inhabitants (mentioned by name) to keep sheep on, who had subscribed to provide such a number of sheep each, To them their Heirs & Assigns forever,—with Liberty for them to build a House for a Shepherd, and for the Shepherd to break up, fence & improve 20 Acres of said land. The Town further voted, that any other Freeholder of the Town who should at any Time afterward see cause to put their sheep in the general Flock, should have Liberty to do so They paying their Proportion of the charge for the Shepherd's House, Folds, wages &c according to the number of sheep they put in. And that no others should have their sheep go on said Commons, but such as Joyn with the first undertakers & comply with these conditions. This Grant we apprehend is now wholly null & invalid. For

1st The Subscribers have not complied with the conditions of the Grant, but have long since thrown up their Scheme as impracticable, and therefore we conceive, have forfeited the Priviledge.

2nd Neither they nor their Heirs have made any claim (that we know of) for near 50 years past, nor any improve-

* For an account of the Sheep pasture see footnote, Vol. I, page 314.

ment for about 60 years, So that their Title is dead by Prescription.

3rd Three of the Committee that were chosen to treat with Plimpton about a Division of the Sheep Pasture between the two Towns (anno 1716) were some of the principal Subscribers, and in their Report agreed to the Division which shows that they thought their Right was extinct, or that they ceased their claim.

4th There was a Committee chose by the Town (anno 1717) to treat with the undertakers about reimbursing [230.] their expences, after they had flung up the Design; and tis to be presumed they fully satisfied their Demands, as they have made no claim or stir since. This being the state of the case we think that the whole Right to said land reverts to the Town.

As for the Proprietors so called, we apprehend that (as such)they can have no claim to said Sheep Pasture—For we find,

1st That the Town in general always disposed of the Common Land as they thought fit till December 26 1704.

2nd And that they might have done so still even to this Day, if they had not then limited & restrained themselves by settling a particular Propriety by name, To the Exclusion of some New Comers into Town, who otherwise would have had an equal Right with the Rest of the Freeholders.

3rd The Proprietors (Considered exclusively of the other inhabitants) derive all their Right from the Town. They hold the Commons by virtue of a Town Grant, as individuals do, who at this Day buy or beg Land of the Town.

4th No Part of the Commons was granted to them, that was settled before by a Town vote; as was the case with respect to the mile and half lands & the Sheep Pasture.

5th The Proprietors themselves expressly assent to this at their 1st meeting Jany 3 1704-5 by passing a vote, that all former Grants & Disposals made by the Town since they were a Town, should remain firm and inviolable forever.

6th The Proprietors afterwards, when the undertakers quitted the Design of keeping Sheep never laid claim to said Land as their Property, tho' most of the first Proprietors were then living and knew how the Affair was circumstanced.

7th The inhabitants of the Town also on that Day (who

were as well acquainted with the Affair) never thought the Proprietors had any Business with the Sheep Pasture by virtue of their Grant; as appears by their twice voting to divide the Sheep Pasture among the Freeholders of Plymouth & Plimpton in the years 1716, 1717 and by choosing a Committee to agree with the undertakers about a Reimbursement.

Lastly as a confirmation of the whole, The Proprietors when they made their 3d & last Division of the Commons into 10 great Lots A. D. 1711-12, They expressly say in their vote that ALL and the WHOLE of their commons should then be laid out, which manifests that they themselves thought that they had nothing to do with the Sheep Pasture (no more than with the mile & half Lands) even tho' then (as we suppose) the sheep scheme was intirely given up.

And we would further observe that the 1st Book in the Hands of the Proprietors Clerk properly belongs to the Town. For 1st Said Book was purchased A D 1702 above 2 years before the Propriety was constituted & formed, Consequently must be at the charge of the Town. Accordingly the general Title of said Book on the first Leaf runs thus, "Plymouth Town Book for recording the general Grants of the new Division of uplands June 19 1702." Namely the 30 Acre Division then granted by the Town, 2nd The first part of said Book is taken up in recording said 30 acre Town Grants (viz, near 80 Pages) which were made in the year 1702, long before the Propriety had a Being. And in the Rest of the Book, we find Town Grants & Proprietors Grants recorded promiscuously together.

3d, The Reason why the Town never claimed said Book, we apprehend to be because the Town Clerk & Proprietors Clerk were alwy's the same till now.

4th we apprehend that the Proprietors Clerk can give no legal (attested) Copies of Town Grants contained in said Book; which might prove of fatal Consequence to Parties in Contests in Law.

5th Hence it appears to us necessary that the Town take effectual care for the Calling a Proprietors meeting, that measures may be concerted between the Town & them for the Removal of there & other Difficulties.

These things occurring to us in prosecution of the Business we were chose for by the Town, tho' some of them do not come so immediately within our Commission, we tho't it

Duty to communicate them for the Towns Consideration, and humbly submit the same.

Plymouth August 23 1766.

Thomas Foster
John Cotton,
John Torrey.

[231.] The Town having accepted of the Committees Report, They voted that Thomas Foster Esqr, John Cotton Esqr & Deac John Torrey should be a committee to take proper steps for Calling a Proprietors meeting as soon as may be. Then the Town voted to choose a Committee to consist of three, to look after the common Land Called the Sheep Pastures, to search how it is bounded, and to take proper steps to prevent encroachments on it, and to plan some method for the future improvement of it for the Towns better advantage, and to act & do any thing that may appear requisite relating to the claim that any other Town may make to any Part of said Land.

Committee chosen are Thomas Foster Esqr, Deacon John Torrey & William Watson Esqr.

Then the meeting was adjourned to 4 o'clock P M.

At the Adjournment at 4 P. M. The Committee chosen to draw up instructions for the Representative reported their Draught which after thrice Reading was accepted by the Town. And the Town Clerk ordered to wait on James Warren Esqr with a copy of the same—which is as follows: To James Warren Esqr Representative of the Town of Plymouth.

Sir:—

The Town having met together according to your Request to give you instructions for your conduct in the great & general Court relative to making good the Damages several Persons in the Town of Boston sustained in the late Times of general struggle for Liberty—would observe to you—

That altho' this Town has the highest Detestation of all mobbs & riotous Proceedings and disapprove of the Acts of Violence that have been committed, and are sensibly affected with the Losses sustained; yet the Town cannot see any good Reason why the Losses those Gentlemen have sustained should be made good, rather than any Damage, which other Persons on any different occasions might happen to

suffer—And more especially as they have not thought proper to apply in a Parliamentary way. Neither can we think it just & reasonable to make the Community chargeable with the crimes committed by a few individuals.

If the sufferers should hereafter apply to the general Court in a Parliamentary way for Relief, we would suggest to you, That there is a very material Difference between those who have suffered from their Attachment to an Act of the British Parliament, and those who have suffered from a want of due Attachment to the Constitution of their native country.

We the subscribers being chosen by the Town to Draught proper instructions for their Representative on the above occasion, Do present the above for their consideration.

Lazarus LeBaron

Thomas Mayhew,

Nathl Goodwin.

[232.] At a Town Meeting assembled & held at the Court House in Plymouth on Wednesday the 3rd Day of December A. D. 1766 at 3 p. m.

Whereas there is a dispute between Nathaniel Goodwin merchant & Nathaniel Leonard yeoman, both of Plymouth in the County of Plymouth concerning the Partition Fence between their respective Lots in said Town, and the said Goodwin having applied to us the subscribers Fence-Viewers of said Plymouth duly chosen & sworn to settle & determine the said Difference on Dispute; we the said Fence-Viewers upon a view of their respective Lots do agree & determine

that the lower Part of said Fence shall be maintained by the said Nathaniel Leonard his Heirs & Assigns according to Law, To begin at the lower end of his Lot and to run up the Hill towards the Road, one hundred Foot—And the Remainder of said Fence to the Road being about an hundred & ten Feet to be maintained by the said Nathanael Goodwin his Heirs & Assigns. We the Subscribers a Committee Chosen by the Town to Consider the affair whether the town will again Improve it again by Keeping Sheep thereon do Report as follows—

[242.] 1 We find that the land Called the Sheep Pasture (being a tract of Land three miles square) was part of the Common belonging to the whole Ancient town of Plimouth.

2 We find that the Town had allways the fee of the land & a right to the wood Growing Thereon it never being Granted to any Particular person or Propriety.

3 We find that the Use & Improvement of said Land was Granted to a Particular Number of Persons & to their Heirs for the purpose of Keeping Sheep with Liberty for any of the freeholders of the Town to Join with them on Certain Terms.

4 We find that said persons to whom the Grant was made built a house & folds on said Land & put a number of Sheep & Shepherd thereon & Improved it in that Manner for 3 or 4 years.

5 We find that afterwards they Gave up the Design, Withdrew their Sheep & Took Away their folds & never made any attempt of that Nature Since.

6 It fully appears to us that upon their Acquitting the Undertaking the whole Use & Improvement of the land Perverted to the Town as much as if said Grant had never been made. And it is Evident from the Transaction of the Town at that day that they had the Same Apprehension. Wherefore the Land being wholly at the Towns Disposal & this Committee being fully of the opinion that it would be much to the Deterement to lett Such a Valuable Interest lay Dead or Dormant any Longer, We would propose that the Scheme for Keeping Sheep on sd Land be renewed & that the Town as a Town Undertake the affair & procure a Sutable number of Sheep with a Shepherd & Erect proper buildings, being Persuaded that altho it would prove Chargeable for the Present yet in the End it would be Greatly Advantagious to the Town, haveing by An Estimate (which will be herewith Exhibited) found that in 3 or 4

years the first Cost will Probably be paid or Reimbursed by the price of the wool & the Increase of the Stock, And that Afterwards it would afford a Considerable Yearly Income & be Greatly helpfull to Manufacturing so Necessary at this day.

But if the Town Decline the Proposals we Should think it best that the Use of Said land be offered to Individuals for the Same purpose & that if a Sufficient Number Appears to Carry on the affair between this & May meeting, that a Grant be made to them Similar to the former Grant, Tho with some Restrictions & Limitations as may prevent future Disputes in Case they Afterwards Desist from the Undertaking. And in order to know whether any will undertake it would be proper to Appoint a Committee to Sett up Notifications of the Design & to take Subscriptions & to make Report of their Doings at May Meeting.

Boston September ye 14th 1768

Gentlemen

You are already too well acquainted with the Mallencholly & verry Alarming Circumstances to which this Province as well as America in Generall is now Reduced. Taxes Equally Detrimental to the Commercial Interests of the Parent Country & her Colonies are Imposed upon the people without Their

[247.] Consent. Taxes Designed for the Support of the Civil Government in the Coloneys in a manner clearly Unconstitutional & Contrary to that in which til of late Government has been Supported by the free Gift of the people in the American Assemblys or parliament; as allso for the mentainance of a large standing Army; Not for the Defence of the newly Acquired Territory, but for the old Colonies and in a time of peace, the Decent, humble & Truly Loyal Applications & petitions from the Representatives of this province for the redress of these heavy and very threatening Greavances, have heitherto been ineffectuall, being assured from authentick Intelligence That they have not yet

reached the royall ear; the only effect of Transmitting these Applications heitherto percieveable has been a Mandate from one of his Majesty's Secretaries of State to the Governor of this province to Dissolve the Generall Assembly meerely because the late house of Representatives refusd to Receive a Resolution of a former House which Implyd nothing more than a right in the American Subjects to Unite in Humble & Dutiful Petitions to their Gracious Sovereign when they found themselves agreeved, this is a right naturally inherant in every man and expressly recognized at the Glorious revolution as the birthright of an Englishman.

This Dissolution you are Sensible has taken place; the Governor has Publickly and repeatedly declared that he Cannot call another Assembly, and the Secretary of State for the American Department, in one of his Letters communicated to the late house has been pleased to say that propper care will be taken for the Support of the Dignity of Government, the meaning of which is too plain to be misunderstood.

The concern & perplexity into which these things have thrown the people have been Greatly Aggravated by a late Declaration of his Exelancy Governor Bernard, that one or more regiments may soon be Expected in this province.

The Design of which Troops is in Every ones Apprehension nothing short of Enforcing by military power the Execution of Acts of Parliament in the forming of which the Colonies have not, and Cannot have any Constitutional Influence, this is one of the Greatest Distresses, to which a free people can be reduced.

The Town, which we have the honor to serve, have taken these things, at their late meeting, into their most Serious Consideration; and as there is in the minds of many a Prevalaing Apprehension of an Approaching War with France they have passed the Severall votes, which we Transmit to you Desiring that they may be Immediately Laid Before the town whose Prudentialls are under your Care at a Legall meeting for their Candid and particular Attention.

Deprived of the Counsell of a Generall assembly in this Dark & Difficult Season, the Loyal people of this province will we are persuaded immediately perceive the propriety & utility of the proposed Committe or Convention & the Sound & Wholesome Advice that may be Expected from a

number of Gentlemen Chosen by themselves & in whom they may repose the Greatest Confidence, must tend to the real Service of our Gracious Sovereign & the welfare of his Subjects in this province; & may happily prevent any Sudden

[248.] & Unconnected measures which in their Present anxiety & even Agony of mind they may be in Danger of falling into.

As it is of importance that the Convention Should meet as soon as may be, So Early as ye 22nd of this Instant Septembr has been proposed for that purpose, & it is hoped the remotest Towns will by that time or as soon after as Conveniently may be, Return their Respective Committees.

Not Doubting but that you are Equally Concerned with us & our fellow Citizens, for the Preservation of our Invaluable rights & for the Generall Happiness of our Country, And that you are Disposed with Equall ardor, to Exert Yourselves in Every Constitutional way for so Glorious a purpose, we are Gentlemen—

With the Greatest Esteem Your Obedient Humble Servts

the purpose to begin by Suppressing that Spirit of Freedom which has at all times distinguished that town, in a manner that will not only Secure them the Applause of the present age, in Spite of the malevolence of placemen & pensioners, & all their adherents, but transmit their Character & Conduct down to posterity in the faithful pages of Impartial History in the most Illustrious view there to stand as a Monument of Admiration to posterity, of their unparrelled firmness & disenterredness in the Cause of their Country. When the names of their Enemies however dignified now by titles of distinction Shall be rescued from Oblivion only to perpetuate their Infamy. And their Posterity Notwithstanding the Excessive

And that we will stand or fall with them in the defence thereof.

Secondly, That we will at all times Support & Encourage the nonimportation agreement of the Merchants & hold in the highest Detestation those who Continue Audaciously to Import Contrary to said agreement & all that are Concerned with them and that we will Encourage Frugallity

Industry & the manufactures of this Country And discourage the use of Foreign Superfluities particularly that of Foreign tea so Pernicious to the health as well as the Interest of this Country.

Thirdly, That a Committee of Inspection be Chose to Enquire from time to time if any person among us Shall directly or Indirectly Trade or be Concerned with the very few who now stand recorded by a vote of the town of Boston of ye 23rd Instant as preferring their own to the publick Advantage of their Country by taking Advantage of the Generous Self denial of their fellow Citizens & Continueing to Import Goods. The Committe appointed by the town at this meeting in Octobr 1771 to take a view of South pond and the Passage from thence to the brook that leads from Finneys meadow Into Eellriver & report their opinion, whether their may not a Convenient Passage or brook be made to run from said pond into Eellriver for the alewives to pass up said Eellriver into sd South pond, to cast their spawn.

The Major part of said Committe have attended that service & a number of People being Desirous of making a try-all offerd their service to labour part of a Day upon free cost. And did stop the water and dug a passage 30 or 40 rods long, & in oppening a passage found verry considerable brook run down Quit large enough for alewives to pass, and are Informed a verry considerable brook runs ever since, tho we do not apprehend that wat is dug already is sufficient, yet your Committe are of opinion that a sufficiant passage may be made with not more than twenty pounds Cost, to make a sufficiant brook for the Alewives to pass or go up out of Eellriver, into sd pond to Cast their spawn.

And Further your Committe on the best Information find that number of Alewives Annually come up the Eellriver, and Doubtless if their was a Good passage dug would go up the said river & brook into sd pond to Cast their spawn, and we are of the mind that their is the Gratest probability, if the affair be well managed the brook, would soon be verry profitable to the town, All which is submitted.

We the subscribers being appointed a committe as by the within vote of the town; have attended that service, & find that in the year 1704, when the town settled the Propriety *their was a reserve made of all the lands that were before appropriated to any particular use. And your Committe allso find that in the year 1701 there was a reserve made of three rods of land on each side of the water Course Issuing out of the Great South pond into the brook that runeth through Finneys meadows into Eellriver, to severall persons that undertook to make a passage for the Alewives to pass up into South pond, which work being never accomplished, Your Committe are of the opinion said land still belongs to the Town in Consequence of the above reserve, so that the town has power still to make use of it for such purposes as they shall Judge best. And Therefore your Committe think best for the town to proceed to act agreeable to the report of ye former Committe, and that a Committe be now chosen to proceed as soon as possible to make a convenient way for Alewives to pass up from Eellriver into said pond & to agree with the owners if any such their be of lands that have any Grants of land, prior to the aforementioned Reserve, as allso to make a sufficient way for the Alewives to pass up thro Eellriver Gristmill dam & to agree with the owners of said Mill about Cutting said way through the dam. Then the Petition of Mr. Thomas Jackson & one hundred other Inhabitants of the town of Plimouth was red & is in the words following.

To the Selectmen of the town of Plimouth.

Gentlemen

We the subscribers freeholders & other Inhabitants of the town of Plimouth deeply Impressed with a sense of the unhappy situation this country is reduced to by the violation of our rights and the repeated attacks made upon our constitutions and feeling that concern and Indignation which should animate every Honest Breast on recollecting the once Happy circumstances of this country & now in Constant viewing the present state of it where we are deprived of the rights of Nature and a Constitution purchased with the blood of our ancestors and the fair inheritance transmited us by them is become the prey of Vultures & Harpies who rest on the spoil of it alarmd as we have been from time to time with taxation without our consent with extention of Admiralty Jurisdictions with the Quartering of soldiers here & the Lawless Insolence & murders they Have Comitted and been supported in with the taking from us the defence of our Capitol against a foreign enemy and Garrisoning it with regular troops in whom we can place no confidence with the contemptuous & unconstitutional treatment of our General Court from time to time and with many other Grievances from the memorable era of the Stamp Act down to the Independence of a Governor, we have nevertheless pleasd ourselves with some Hopes that Justice or Common sence might one day take place in the Administration and releive us from our Difficulties before the System of Slavery was fully compleated. But the last step taken by administration by providing salaries for the Judges of the Superior Court has left us without any expectations of that kind by fixing the last seal to the Despotism they Have so Long endeavoured to Establish here. We therefore Have reason to Consider our situation as very Dangerous if not Desperate and such as requiries the united attention and wisdom of the whole to pre-

vent being irretrievably fixed on us & our posterity. We therefore Desire you to Call a town meeting as soon as Conveniently may be that the Inhabitants of this town may unitedly take this matter into consideration and pursue

[299. Such steps as may be proper on such an occasion and at such a Day as this is.

At a meeting of the town of Plimouth regularly Assembled & held in the Court house in Plimouth, on Monday ye 14th day of Decembr A D 1772 by Adjournment from the 24th of November last.

Voted that the letter &c from the town of Boston to the Selectmen of this town be read, which was done. And then the Committe who were chosen by the town at their meeting on the 24th of November last to Consider what is best for the town to do, & to report a Draft of such votes or resolves as they many think it best for them to come into, Reported in the words following viz:

The Impatiance and Indignation natural to the oppressed, the Horror & resentment natural to freemen, who know the value of their rights & see them not only repeatedly attacked, but torn from them with every mark of Insult, as well as Injustice, the pain natural to the virtuous & vigilant who see the coldness & Indifferance of some & the Prostitution & servilley of others, who Inherit with them the prise & reward of the Sufferings & blood of their Fathers, have more than once called the united attention of the Inhabitants of the town of Plimouth to a Consideration of the unhappy circumstances of their country, but never upon an occasion more alarming than the present, when to every other species of Injustice & Insult to every other stride of Despotism & Tryanny, is added as we hear & have abundant reason to believe, a provision made for the support of the Judges of the Superiour Court of this Province, in a way different from the usuall & constitutional method by the free Grants of the people, which has a Tendency to Poison the Fountain of Justice, upon the purity of which & the streams that Issue from them, depend the happiness & peace of a Society; & also to compleat the system of Despotism by Exposing the lives & properties of this Great people, to the mercy & decisions of men who are not only Independant of them for their appointment, continuance in office & support, but dependant in effect for the first & absolutely & intirely for the

two last, upon those who distinguish & sepearate their Interest from ours, & who for severall years, have been so far from Discovering any one Instance of regard for our well-fare & happiness, that they are the source from whence we derive all our difficulties & Grievances & who in this verry Instance discover a partiality by no means to be Justifyd by placeing the Judges Here upon a footing very Differant from that of the Judges in England, & which as the

[301.] Doctrine of Instruction is now managed & executed may open a door for appointment to the Supream seat of Justice here, strangers whose extravagance & debaucherys may drive them from their native land, and whose rapacity & Injustice in that station may be in proportion to their Poverty & Wickedness upon an Occasion. Therefore so dangerous & Important in its nature & consequences The Inhabitants of this Town in Town meeting assembled Influenced by a sense of the obligations they are under to God & their own consciences, as well as to Posterity, to do every thing in our power to Preserve entire our rights, and at least to bear our Testimony against all Invasions of them, do now to avoid the reproaches of our Consciences & the Execrations of Posterity. Resolve.

1 That the People in this Province are Intitled to all the rights that the people of Great Brittain can Claim by nature & their Constitution.

2 That the rights they are intitled to have been violently & most Injuriuously Infracted by the Parliament of Great Brittain, and the Administration of Government there and their tools here in many Instances, which having been formerly mentioned on like occasions & lastly by the Boston Committe under the head of Infringments & violation of rights & published & sent to this & the other towns in the province render it unnecessary to desend to particulars.

3. That the providing of the support of the Judges of the Superiour Court of this Province in any other manner than by the free Grants of the people, is an Infracton of the highest nature & tends of itself (and more especially in conjunction with the Independancy of the Governor on the people here for his support & the Influence of Instruction) to destroy every idea of a free Government; and to erect as perfect a system of Despotism in this Province as ever took place in any country.

4. That our Representatives be & hereby, are Instructed to unite in such measures as shall place the Judges of the Supream Court of Justice of this Province upon a Constitutional Basis & make when that is done a suitable Provision for their support.

5. That in the opinion of this town the United thanks and Gratefull acknowledgments of every Individual who is a friend to the Constitution of this country & the Intrest of posterity is due to the Vigilance & spirit of the Inhabitants of the town of Boston upon this & many other occasions.

6. That this report is put upon the Records of this Town there to stand as a Publick monument of the sense the Inhabitants have of their rights and of their Determination at all times as occasion & opportunity may offer assert Vindicate & suport them

* The land given by Dr. LeBaron to the town was in Carver not far from the Middleboro line, and contained about ninety acres in two lots of about equal size, separated from each other by lands of I. Atwood and Deacon Lucas.

free from charge to the town, we are of opinion that the new school house be Sett Somewhere between William Warrens & the roade that goes up the woods by Ebenezer Bartletts, and the town School be kept one half the time in that, and the old School house removed & Sett up between Josiah Morton Junrs & William Clarks, & the other half of the time Said School be kept in that house. And the other School house to be placed on the rode neere where Eleazer Ellis's barn stands, & the other third of the time the Town allow the School to be kept at their charge in sd precinct, to be kept in the last mentioned house & their being no School house as yet built if those Neighbourhoods or either of them Can't Get a house built this winter, to hire room or rooms as neere those places as they can, the Neighbourhood about Ellis's to come as

[310.] farr northward as to Include Vallers farm, & Southward to Sandwich line, each neighborhood to build their own Schoolhouses, and your Committe beg leave to report it as their opinion that considering the Growth of that precinct & the number of Children in Each of those Neighbourhoods it would be just & reasonable that two months more be Allowed and Added to the four months heretofore Voted them to Keep a School at the towns Charge, all which is Submitted.

The Inhabitants of this town ever attentive to the rights & Interest of their country, having been repeatedly alarmed with the measures of late years, adopted & pursued by the Brittish Administration under various forms Evidently repugnant to Every principall of our Constitution, & after flattering ourselves from time to time with hopes that from a Change of men or some other happy Circumstance

[314.] Such new measures might be adopted as would put an End to the unhappy contest between Britain and the colonies & leave us in the full enjoyment of those rights, which no power on Earth can reasonably dispute; much less pretend to deprive us off, have yet the misfortune to find the British ministry so far from relaxing, that they are still pursuing with assiduity the Same destructive measures, a recent Instance of which we see in Their attempt by virtue of an Act of the last Session of Parliament, to Enable the east India company in London to Export their tea to America in Such Quantity as the Lords of the Treasury shall think proper subject to the same unconstitutional Tax or tribute, which we have upon other occasions & Under different appearances with firmness & resolution oppos'd as dangerous to that liberty which our fathers claimed & Enjoyed which we have a right to Enjoy & which our posterity may Expect we transmit to them Inviolat, do think it our duty on this as on Severall other Similar occasions to Express our firm resolution not only to oppose this step as dangerous to the liberty & commerce of this country, but allso to Aid & Support all our brethren in their opposition to this & Every Violation of our rights; and Therefore resolve.

I That the dangerous nature & tendency of Importing teas here by any person or persons Especially the India company as proposd subject to a tax upon us without our consent, & the Steps Incumbent on Every one Concerned for the true Interest of America to take on the occasion, as well as the sentiments & conduct they should observe with regard to all aiders & abettors of that measure are Extremely well Expressed by the late Judicious resolves of the Worthy Citizens of Philadelphia.

2dly That the persons to whom the sd India company have consigned the tea they propose to send to Boston, have

by their wickedness & obstinacy in Endeavoring to accept of & Execute their Commission contrary to the almost universall sense & desire of the whole province, & in still continuing to refuse to gratify the reasonable request of their countrymen forfeited that protection Every Good Citizen is Intitled to & Expos'd themselves & their abettors to the Indignation & resentment of all Good men.

3dly That it is an affront to the common sense & understanding of mankind & to the Majesty of the people, who are under God the Source from whence is derived all powers & magistracy in Every community to assert that any meeting of the people to consult measures for their common Security & hapiness on very Extreordinary & alarming occasions, is Either Unlawfull or Irregular

[315.] Since no legislature could be supposed to Establish rules of conduct in such cases as no man could even Suppose would take place in a free & Good Government.

4thly That the late meetings of a verry large & respectfull body of the Inhabitants of Boston & the ajacent towns, & their conduct & determination at sd meetings relative to the Importation & reshaping of any teas that have or may be sent here Subject to a Duty on Importation was both necessary & laudable & highly deserving the Gratitude of all who are Interested in or with the prosperity of America; & that whoever have attempted (by any means whatever) to Interrupt their proceedings & prevent the full operation of their determinations have in that Instance shown themselves Inimical to the freedom & Interest of the Country.

5thly That we are in duty & Gratitude bound not only to acknowledge our obligations to the body who composd that meeting for their noble, Generous & spirited Conduct in the common cause, but allso to aid & Support them in carrying their votes & resolves into Execution & that we will not only aid & support them in Executing the said Votes & resolves, but at the hazard of our lives & fortunes will Exert our whole force to defend them against the violence & wickedness of our Common Enemies.

6thly That the town clerk immediately record these votes & resolutions & deliver a fair copy of them to the Committe of Correspondence of this town to be by them Transmitted to the Committe of correspondence for the town of Boston.

Then a vote was called to know if the town would accept sd report it passed in the Affirmative Unanimously.

[316.] At a Meeting of the town of Plimouth Legally assembled & held at the Court house in Plimouth on Monday the 13th day of Decembr Anno Domini 1773 by Adjournment from the 6th Instant.

The committe apointed to view the road between the house that Mr Joseph Warren deceasd lived in & the house of Mr. Joshua Swift Reported they had attended that Service.

After viewing the road &c they are of opinion that it is best for the town to purchase a new road through the land that was Mr Joseph Warrens deceasd & come out at the foot of the Mill lane, & that if the town conclude to purchase the land proposed for a new road that in that case the town Should make Satisfaction to Ezekiel Morton for cutting him of from a road to his land, or Enable him to come to the sd new road from his land. They Estemate the Expençe in making the sd new road to be about thirty five pounds Lawfull money.

Whereas the Selling of India tea under the present Circumstances of this Country has a tendency not only to encourage the use of them but to embarrass that opposition which is now made to the tyranny & oppression Exercised over us and to render abortive those attempts to secure our rights and liberties which are made in an Easy & gentle way & thereby to reduce us to the disagreeable Alternative Either to renounce, or to be obliged to defend them in way that Every good man could wish there should be no occasion for; and whereas the Comittee of Correspondence of this town attentive to the Public good & the originall design of their appointment have with a laudable zeal taken into Consideration the danger of Such a practice; And exerted

[322.] themselves to put a stop to it without the Success we Could wish for as Capt Gideon White who is one of the three of the Inhabitants of this town who have for Severall months past been in the practice of Selling tea has refused to give any Satisfaction that he will not Continue the Same practice for the future Contrary to the Sense of his fellow townsmen to the remonstrances of our Said Comittee & the good Example of the other two gentlemen who had been in the Same practice & whereas the dangerous Consequences of such a Conduct are not to be the Less dreaded by the Sale of the Said teas being Confined to one person we do therefore in order to discontenance & put a Stop to such a pernicious Practice Resolve.

1st That whoever Continues to Sell or shall for the future expose for Sale in this town any India tea is & ought to be Considered as an Enemy to the rights of America & the Constitution of his Country.

At a meeting of the Town of Plimouth held at the Court house in Plimouth February 17th A D 1777 by Adjournment from Janry 27th Last, Joseph Bartlett Junr Chosen Clerk for this meeting Mr. Spooner being absent. Then the Town voted as follows :

Whereas at a time when the Town was greatly exposed to the Infection of the Small Pox, they encouraged the erecting an Inoculating *Hospittall, and implicitly consented that it Should stand on their Land, tho' there was no Express vote for it, and a considerable number having been already inoculated at said hospital, and all that belong to the Town (disposed to be inoculated) having had Sufficient opportunity therefor, and it apearng unreasonable that the Town should be Continually Exposed to the danger of Infection, and kept in fear for the sake of Strangers, It is therefore upon mature Consideration ordered by said Town, that no inoculating Hospital Shall be Continued upon their land, and that those that are concerned should after this week desist

* A Hospital was erected at Billington Sea, where persons could go to be inoculated for smallpox before vaccination was discovered. Its site is still called Hospital Cove or Landing.

from receiving any more Patients into said Hospital upon Penalty of having their Buildings pulled down. And Voted that a Committee be Chosen to see this vote carried into Execution.

The Grounds of this Vote are

1. What is mentioned above the continual danger of Infection to which we may add

2nd The Carelessness of some concerned in the affair And

3rd The reason we have to think that two or three received the Infection by means of said hospital.

4th It hinders market People & others from coming into the Town by which not only the Town, but the County Suffer.

5th If a great number of strangers from other parts should flock to said Hospital It would consume most of the fresh Provisions that are brought in which the Towns People stand in absolute need of

6th The Joynt Proprietors who equally own the Land with the Town on which the Hospital stands, were never asked their Consent to the Erecting Said Hospital, and were always averse to it; and now joyn with the Town in This Prohibition.

7th It is no ways reasonable that the Towns wood on Said Land Should be Consumed in the Service of Strangers.

[359.] 8th The Town take it amiss That their gentle request to the undertakers not to proceed any further in the affair was treated with such disregard, even before any further danger was apprehended.

9th The town apprehend that the Undertakers have been Sufficiently reimbursed for their Expences in building said Hospital by the number already admitted, which Exceed 200 the number first proposed.

10th What the Court have done is no Impediment to this prohibition. Their Power being only to grant a Permission, so that Parties Concerned Should be exemptd from the penalty of the Act, which imposes a heavy Fine on Inoculation without License; but their authority does not reach to dispose of Property, or so much as meddle with it, without the Consent of the owners, or for a Longer Term than the owners think fit, so that the Town have Power to order about their own Land just as much as if the Court had never

meddled in the affair at all, and may resume whenever they find any Inconvenience to follow.

[383.] At a meeting of the Town of Plimouth Legally Assembled & held at the Court house in Plimouth June 1st 1778 by Adjournment from ye 18th of May last, the report of the Committe appointed to take into Consideration the form of Government lately Drawn up by the Convention of this state & to consider the advantages & Disadvantages ariseing therefrom, beg leave to report that they have repeatedly perused said Constitution with Great Candor & Deliberation, and are of opinion that many parts of it are Bot-tomed in principalls of Equall Liberty & Calculated to secure the Government from the Encroachments of Ambition and the artifices of designing rulers. Such more especially is the Establishment of Annual Elections in the several branches of the Legislature, Fundimentall in every free Government, and the best Barrier against Corruption and the restless passions of mankind.

Your committe would be happy if they could speak with

the same applause of every article in the Constitution; But Justice to themselves and posterity oblige them to point out several things which they apprehend are material Defects, and above all the Inequality of the representation as Prescribed in the 6th Article, an Inequality which may operate to the disadvantage of this Town, bordering on the Sea Coast, whenever any Commercial Question shall be agitated in the General Assembly. The erecting a Court of Probate is allso in the Judgment of your Committe an useless burthen on Society as it often unnecessarily subjects the Widdow & Fatherless to the Expençe of Travelling twenty or thirty miles for the Settlement of verry small estates, which may as well be done by two or three honest men in each town. The mode of Impeaching and tenure by which many subordinate civil officers hold their commissions appear to be verry exceptionable, and are Capable of Amendment, much for the benefit of the Community. The necessity of a Rotation in the offices of Governor, Lieut Governor & Senator will be evident to Every body who reflects that the appointment of many civill & all military officers is vested in the Governor & Senate, which power of appointing may enable a sett of Enterprising, Intreagueing men to Establish an Intrest & Influence Through

[384.] the state that may be Dangerous To the Libertys of the people. The want of a rotation Therefore in these officers in the Constitution under Consideration is a verry Capital omission. Your Committe are further of opinion that a bill clearly ascertaining the rights of the people as men, christians and subjects, ought to have preceeded the Constitution, And these rights should be expressed in the fullest & most unequivocal Terms. Upon the whole as this Constitution is in so many parts defective; and as when once established it will probably remain unalterable. Except by coercion & violence, your Committee think that it ought to be rejected.

Joshua Thomas,
Thomas Mayhew,
Zacheus Bartlett
Elkanah Watson.

Ephraim Spooner	Colo George Watson
Colo Theophilus Cotton	Capt Thomas Davis
Mr Isaac Symms	Mr Thomas Jackson
Capt Thomas Nicholson	William Watson Esqr
Mr Samuel Jackson	Majr Nathl Goodwin

Isaac Lothrop Esqr a Committe for that purpose.

Then voted that Inasmuch as Mr Lemuel Morton Late of This Town Deceasd in his last will Generously Gave this Town one hundred pounds for the use of the poor of Sd Town, The Town Entertains the highest Sense of Gratitude of the Donor's Generossety & order this vote to be recorded and that a Copy thereof be Presented by the Town Clerk to his Sd Morton Executors.

[397.] At Sd meeting the Town voted that the State of the Case of those Lands Calld the Sheep pasture belonging to this Town & our title thereto as Drawn by John Cotton Esqr Should be Recorded in the Towns book which is In the words following viz—

In May 1703 The Town of Plymouth voted That a Particular Track of Land Consisting of three miles Square (particularly discribed and bounded) Shall lay for a perpetual Common.

And then Granted the Use of it to Sundry Inhabitants (mentioned by name)to keep Sheep on, who had Subscribed to Provide Such a Number of Sheep Each—To them their Heirs & assigns forever, with Liberty for them to build a House for a Shepherd ;and for the Shepherd to break up, fence and improve 20 acres of said Land.

Liberty was allso granted any other Freeholder of the Town to joyn with them afterwards if they Saw cause, upon certain Terms.

The undertakers pursuant to the above Grant built a House & Folds on Said Land and put a Shepherd thereon; and improved it in that manner for 3 or 4 years or more. But after Tryal finding the Design unprofitable they wholly quitted it, withdrew their Sheep, took away their Folds and never made any Attempt of that Nature Since. So that the Use & Improvement of the Land reverted to the Town as much as if said Grant had never ben made; the Fee of it being in the Town before being never granted away. This Point is not contested by any. In the year 1706 Plimton (in which Part of the Land lyes)was made a Township being wholly taken off from Plymouth. In the year 1726 Kingston was made a Township (the greater Part of which was taken off from the ancient Town of Plymouth the rest from Duxborough & Pembroke). Part of the above Lands (and much the best Part) lyes within their bounds.

The Question then is Whether Plimpton & Kingston Shall come in for their proportionable Share of Said land as being Part of the ancient Town of Plymouth, when the above Grant was made, or whether they are cut off from any Claim by their becoming distinct Townships, and the whole of Said Common to belong to the present Town of Plymouth.

The Pleas that Plimpton & Kingston will use in support of their Claim will be—

I That Part of the Land lyes within their Bounds.

II That their Right as Proprietors cannot be lost meerly by their being joyned to a new society, without Some Act of the Court or Acquittance of their Right made by themselves.

To this we answer

1st That if they claim meerely as Proprietors (Separate from the 1st Plea of the Lands lying partly in their Towns) then their Claim would equally extend to the other Commons lying wholly within the present Town of Plymouth (and even to the very land our Meeting House Stands upon) which is certainly absurd, and what they never pretended to. So that it seems the Controversy will chiefly (if not wholly) turn upon this Point, whether Part of the Lands lying within their Bounds gives them a Right

2d If this be the Case the necessary Consequence is— Each Town must take the whole included

[398.] within their Respective Bounds, There is the Same Reason for taking all as any Part, but how unreasonable is this? Then Kingston would have the largest & best share (altho the Smallest of all) Plimpton would have but a trifle, and Plymouth (who had 20 or 30 Inhabitants to one at the Time of the Grant) would be put off with a Third or less, quantity & quality considered.

3rd It's being included within their Limits only proves their Jurisdiction not their Property. Tis the Same here as in personal Cases. For Surely a Town may own Land in another Town (as Plymouth once did & now do in Middleboro) as well as Individuals.

4th There is no need of a formal Acquittance of their Property. Their very asking for a Township is an implicit giving up their Rights as Members of the Town of Plymouth. Tis as much a Just claim of all their common and Town Rights, as if they removed out of the County.

III Plimpton in particular will urge that Plymouth have already granted that they have a Right to Part of this land by their choosing a Committe in the year 1716 to treat with them about a Division of it, and that Said Committe agreed that Plymouth Should have two Thirds, and Plympton one Third of Said Sheep Pasture. To this it may be answered

1st That no Record of any Part of this Proceeding can be found in Plymouth Town Book (altho it has been carefully Searched leaf by leaf) no account of any Committe Chosen for that purpose, or any Sort of agreement made or Report returned to the Town. But all that is found about (it) is in Plimpton Records only which evidences Plymouths final Dislike of the Proceedings; and therefore order'd their

Clerk, that no Traces of it Should appear on their Records.

2nd If Such a Division was really proposed in that Day, it might have been founded more upon what they thought Principles of Equity, than from any apprehension of Plimptons legal Right; which tis not likely they even Strictly Enquired into And the Agreement being never compleated nor confirmed by the Town, it is the Same thing as if nothing had been done.

IV Kingston in particular will Plead the words of the Court Grant, when they were made a Township, which run thus—"Provided & be it further enacted, that nothing in this Act contained Shall be construed, deemed, judged or intended to hinder or prejudice the Right & Interest of all or any Persons whatsoever in any of the common or undivided **Lands within the Town of Plymouth & Kingston aforesaid,** but the Same Shall remain as heretofore."

Some of Good Judgement among us think this makes against them. It appearing from Some Minutes left, that this was the Grand objection made use of against their being a Township (which was violently opposed by Plymouth) That they would take off some of the best of our Common Land. The Court to remove the Difficulty declare, That the Grant of a Township Should not affect the Common Land, but that that Should remain as before: That is. Say they, it Should remain to the Town of Plymouth as it before did. But Kingston interpret the Grant otherwise, and think it established their Right. Here then we query, who puts the most proper Construction on the words of the Grant? But let This Query be resolved as it will. It is the Province of the general Court to determine upon Property; Does not that belong to another Department, namely to the executive Courts; Whatever apprehension our Fathers might have upon the Point when they made the objection. The general Court only grants Jurisdiction and that we are willing they should have. But admitting the Courts' Right & Design to meddle with Property, and to settle the Controversy between the Parties, there is a Circumstance attending it, which Shows how Plymouth understood it at the time, which they would not have done if they had not known it had been in their Favour, in which Point they could not be mistaken. It seems to be a perpetual Memento to guard against any further Claim from Kingston.

[399.] In the last Place, we would observe is general respecting these Claims That Plimpton may claim as a Town, being wholly taken off from Plymouth, but Kingston cant do this being partly taken off from Pembroke & Dux-boro, who never had any thing to do with our Commons. How then can Kingston establish any Sort of Claim? They say, as Proprietors & Individuals (tho' not as a Society) many of them being derived from the ancient Inhabitants of Plymouth. To this I answer

1st What Confusion will this make for Plimpton to claim in one Capacity, and Kingston in another: How can their respective Claims be ever adjusted?

2nd The Proprietors as such have nothing to do with the Sheep Pasture: It belonged to the Town, and never was granted to the Proprietors so Called: The greater Part of the other common Lands was indeed granted to them by the Town, but not this, nor the mile & half Lands so called. They were both expressly reserved, and the Town always held the Fee of them as a collective Body, and not otherwise.

(N B The Case between the Town & Proprietors is particularly Stated in the last Town Book)

But

3rd Supposing the Proprietors have a Just Claim to this Land, then neither of the Towns (as Such) have anything to do with it. How they Came Plymouth & Plimpton (as Towns) to talk of dividing it between them in the year 1716, the Proprietors never claiming or protesting against it, at a time when the Case was fully known.

4th If they claim as Proprietors & Individuals then may Halifax as well claim as they, one half of which was included in the ancient Town of Plymouth. What a Jumble & Confusion of Claims will this make; and how impossible to Settle them.

4th If they claim as Individuals then first every Individual that ever belonged to the Town may put in a Claim tho' they are removed a hundred miles off, which is absurd. Their being no longer Townsmen of Plymouth cuts them off. Their ceasing to be members of the corporate Society which constitutes the Township deprives them of the Rights belonging to them as such; and the like may be said here.

2nd If they claim as Individuals how can their Right

(if they ever had any) be ever Ascertained; who can tell how many Inhabitants lived within their bounds and ours at that Day? and must not this be known in order to make a just Division?

Claiming then as Individuals must by no means be admitted. An uncertain Right is no Right. A Doubtful Claim must expire in the Birth. Lawyers that have some years ago been consulted in the case, who were fully of the opinion that it was clear in our Favour, are Mr John Adams, Coll Otis & James Otis Junr and Mr Leonard.

First, That nothing in the opinion of this Town has contributed more to Depreciate our paper currency, or had a more Direct tendency to Destroy the relative Value Between this medium & all kinds of Property, which it was Designed to Represent, Than the pernicious practice of buying & selling silver & Gould, & Demanding Either of them in part or whole for Goods or rents. It is Therefore Resolved that whoever shall buy or sell silver or Gould, or demand the same in part or in whole for Goods or rents, shall be Deemed Infamous, and held up to view as an Enemy to the freedom and Independance of his country by publishing his name in all the public newspapers Printed in this State. After which Publication it shall be Disreputable, in any honest citizen to maintain Either Scivell or Commercial Connections with a wretch who for the sake of Acquireing a little Paltry Gain to himself Can wantonly sacrifice the Intrest of his country. Goldsmiths & silversmiths, notwithstanding this resolution, are permitted to purchase so much Gold or Silver as is necessary for the purposes of their manufacture, but if any Goldsmith shall purchase more Gold or Silver than he manufactures upon Complaint made to the Committe of Correspondance, Inspection & safety, such person shall be ordered to appear before them & clear himself upon Oath from this Imputation, and upon his refusall to do so, shall be Delt with as is Directed by this Resolve.

Secondly—As the Laws Enacted by our Provident Ancestors, with wonderfull wisdom & sagacity for the Establishment & regulation of schools have Diffused an universall spirit of knowledge & Enquirey not to be met with in other states or Kingdoms, and have been a Great means, under Providence of Preserving this people from the shackells, fabricated for them by a Foreign power, and as the Preservation of the freedom, health and vigor of the state Depends in a Great measure upon the strictest attention being paid to this Institution.

[414.] *Resolved* that the school Committe be ordered to provide (if such an one be not already provided) an able & faithful master, to keep the Grammer school in this town, posses of such Quallifications as are required by law.

Thirdly—That in order to Give force to & Carry into effect the Resolves & Regulations of the Convention met at Concord the 14th day of July Ultimo—

The Extraordinary Successes that have attended the Armes of the United States & our Allies in the preceeding Campaign, Thanks to Heaven therefor, Give us Some reason to think that our Enimies will Soon Sue for peace, In which your Constituants feel themselves as Immediately Interested as any part of the Continent, and as the fishery has been the principal Support of this town neerely Ever Since the Settlement of it until the Commencement of the presant war. Since which they han't been able to pursue it to any advantage, which with other losses has almost ruin'd us, this being the Case, we think it our Indispensable duty to Instruct you to use your Influence in the approaching Session of the Legislature of this Commonwealth, that an application be made to Congress, Praying they would Give possitive Instructions to their Commissioners for Negotiating peace to make the right of the United States to the fishery an Indispenceable artical of treaty. The Instructions Given by the Town of Boston to their Representative on this Subject to which we refer you, are in our opinion

[462.] amply Sufficient, and the arguments therein Contained must Convince Every Honest mind, that it is of the Greatest Importance, This matter Should be attended to, not only by this and the other Eastern States, but to the whole of the United States without Exception & If neglected, or lost, will be verry Senceably felt by them all.

At the celebration of 1889, a poem was delivered by John Boyle O'Reilly, of Boston, and at the celebration of 1895, a poem was delivered by Richard Henry Stoddard of New York. I have found, on referring to the printed copies of the addresses of Rev. Chandler Robbins and Hon. Alden Bradford, that they were delivered in 1793 and 1804, and not in 1794 and 1805, as stated by Thacher and Russell. [Editor]
